To whom it may concern:

It has come to my attention that Professor George Zoupanos is being attacked in court. . In this connection, my opinion regarding the person of Professor Zoupanos and his standing in the scientific community may be relevant. I wish to state that I have known Professor Zoupanos and his scientific contributions for many years and respect both very highly. In particular, he has organized international scientific meetings in Corfu which have been highly regarded and to which it has been my privilege to contribute. It is my understanding that in this he has also been motivated by his wish to do what he can for the advancement of science in Greece.

With best wishes,

Jack Steinberger
Nobel Laureate, Physics, 1988.
